Sir:

In further response to the Office Action mailed April 12, 2005, and further in response to the restriction requirement dated September 7, 2005, please amend the above-identified patent application as follows:

## In the claims:

1-21. (Canceled)

- 22. (Previously Presented) A process for generating hydrogen gas for fueling a fuel cell comprising:
- a) directing water vapor from a water vapor generator to a hydrogen generator, said hydrogen generator being at least partially filled with a substantially non-fluid substance which reacts with water vapor to generate hydrogen gas; and
- b) directing hydrogen gas and any residual water vapor from the hydrogen generator to a fuel cell;
